12-24V, LED Rotating Green Beacon

www.ionnic.com

#103300C

**DESCRIPTION**

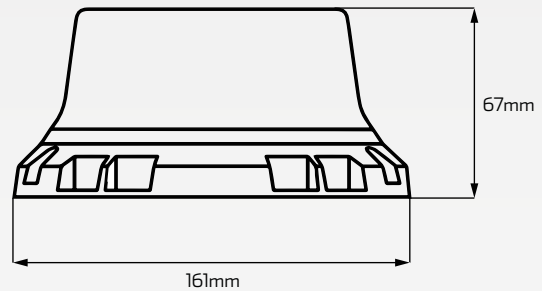

12-24V, LED Rotating Green Beacon with 3 bolt mount. Clear lens when not illuminated. Powered by 18 x 3W high powered LED's. Includes 11 different flash patterns. Equipped with rugged polycarbonate lens & die-cast aluminium lens. IP67 weatherproof protection.

Comes with 5 year manufacturing warranty.

**FEATURES**

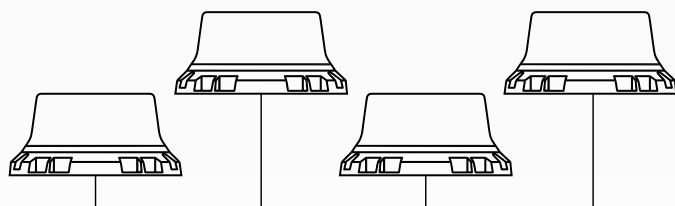

- Clear lens low profile green beacon
- Aerodynamically low profile
- Multivolt: accepts 12-24 volt connection
- Features 11 different flash patterns
- Vibration resistance rated to SAE J575
- Equipped with rugged polycarbonate lens & die-cast aluminium base, provides increased heat disipation area.
- Comes with 5 year manufacturer warranty

**TECHNICAL SPECIFICATIONS**

**Flash Patterns**

No.	Flash Pattern	No.	Flash Pattern
1	• Quad burst	7	• Slow rotation
2	• Quad flash	8	• Normal rotation
3	• Double flash	9	• Fast rotation
4	• Single flash	10	• Cycle scan
5	• Fast flash	11	• Steady on
6	• Quad & single flash		

Flash patterns are synchronizable between IONNIC 106 & 103 series.

<b>Voltage</b>	• 12-24 Volt
<b>Current Draw</b>	• 3.2A @ 12 Volt
<b>Flash Patterns</b>	• 11 flash patterns
<b>Lens Colour</b>	• Green (clear lens when illuminated)
<b>Lens Material</b>	• Polycarbonate lens
<b>Base Material</b>	• Aluminium base
<b>IP Rating</b>	• IP67 rated
<b>LED Count</b>	• 18 x 3W high powered LED
<b>Operating Temperature</b>	• -30°C to 50°C
<b>Dimension</b>	• 161mm dia x 67mm high
<b>Mounting</b>	• 3 x 7mm dia holes @ 151 PCD
<b>Pre-wired Cable</b>	• Yes, 230mm
<b>Warranty</b>	• 5 year manufacturer warranty
