DESCRIPTION

AE2400 is a high performance 27MHz (pre-tuned) antenna whip. Designed to withstand Australia's harsh conditions and the extreme 4WD environments. Rugged black fibreglass helical style whip. Lightweight, suits most GME mounting base. A great value and the perfect companion of choice for a 27MHz radio.

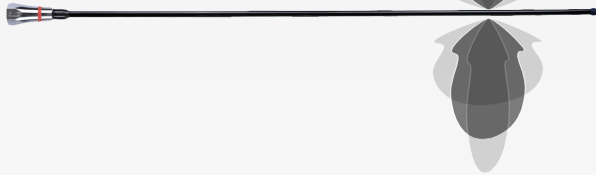

600mm overall height (without base) and 5/16"x26 thread.

FEATURES

- Pre-tuned 27Mhz high performance antenna whip
- Helical style fibreglass whip
- Requires mounting base
- 600mm overall height with 5/16"x26 thread

Radiating Pattern
