DESCRIPTION

AE346B is a high performance AM/FM (pre-tuned) antenna with fibreglass whip and adjustable base. Ground independent and a perfect option for marine communication. Designed to withstand Australia's harsh marine environments. Constructed of rugged UV stabilised materials, made to last.

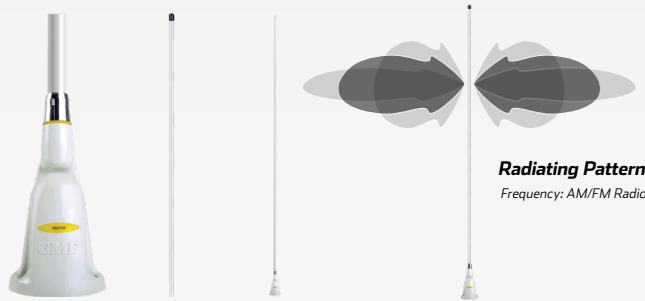

Includes a 5m coaxial cable and a PL259 connector.

FEATURES

- Fibreglass whip antenna with adjustable base
- UV stabilised protection for greater operational life
- Ground independent
- Removeable colour coded badge for easy identification
