**1**  
YEAR  
WARRANTY

www.gme.net.au

**DESCRIPTION**

AE409L offers an option to deliver a 6.6 dBi gain with it's first section or a 9.1 dBi gain by attaching it's second section, offering a greater radiating pattern during those long flat roads. The antenna has a fold down construction for driving and parking flexibility.

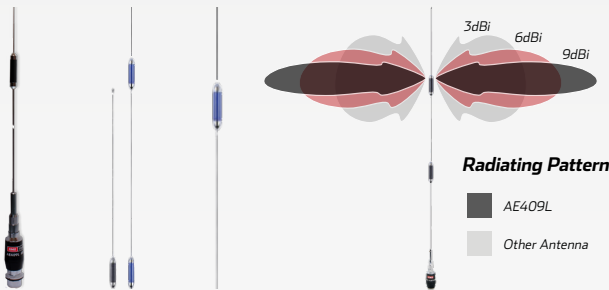

Comes with a 4.5 metre coaxial cable.

**FEATURES**

- Two section fold down style UHF antenna
- Offers an option of 6.6 dBi / 9.1 dBi gain
- Rugged stainless steel antenna build
- 830mm / 1230mm, Ground independant antenna

**Comprises**
