## DESCRIPTION

AE4701B is a high performance radome antenna designed for Australia's harsh conditions and the extreme 4WD hobbyist. The antenna base is equipped with a coaxial termination embedded in it's screw to fit spring, allowing a different whip to be installed on the same spring for varrying terrains, needs and weather conditions (additional whips not included).

Comes with a 4.5m coaxial cable and PL259 connector.

## FEATURES

- Black fibreglass whip antenna
- Stainless steel heavy duty parallel spring
- Base allows for interchangeable antenna whips
- 2.1 dBi, ground independant antenna

### Comprises

Qty	Description
1	• AW4701B UHF black radome whip
1	• ABL004 antenna base
1	• AS001/B stainless steel parallel spring
1	• 4.5 metre coaxial cable
1	• PL259 connector
