

**12V 100-1700CCA  
Battery Load Tester**  
#BLT500

www.projecta.com.au

**DESCRIPTION**

LED Digital battery analyser. Provides a simple, fast and accurate test of battery condition. Able to measure up to 100 - 1700CCA range.

Equipped with rubber moulded battery clamp, offering a safe spark free contact. This Battery load tester is safe to be use on a fitted or out of a vehicle batteries.

**FEATURES**

- Compact and durable, suitable for workshop environment
- Suitable for 6 & 12 Volt batteries
- Easy to read screen detailing test indicators
- Momentary toggle switch to apply load to batteries
- Use to test battery condition / charging system / starter motor

**TECHNICAL SPECIFICATIONS**

'At a glance' LED indicators shows a bright and easy to read details of the battery

Safe to use on a fitted or out of vehicle batteries

Displays CCA, battery voltage, percentage of battery health and general battery condition

Rubber moulded battery clamps for spark free connections

<b>CC Range</b>	• 8 Stage automatic
<b>Scales</b>	• 240 Volt AC, 50Hz
<b>Display</b>	• 600 Watts
<b>Approvals</b>	• 3-40A @ 6V / 3-40A @ 12V / 3-20V @ 24V

**ESTIMATE RATING  
(if CCA is unknown)**

Energy Capacity	CCA Rating
• 1000 - 1299 CC	• 300 CCA
• 1300 - 1599 CC	• 400 CCA
• 1600 - 1999 CC	• 500 CCA
• 2000 - 2999 CC	• 700 CCA
• 3000 - 3500 CC	• 800 CCA
