**DIMENSIONS**

**Dimensions**

- Height: 82mm
- Diameter: 40mm

**IMPORTANT INSTALLATION WARNING**

If the socket locator is removed from the LED headlight you must ensure it is returned into the correct position. The LED's must be pointing to the sides. If the LED headlight is not in the correct position it will not function as intended.

**Note:**  
Original manufacturers rubber or plastic lamp dust covers may need to be modified or adjusted to accommodate these lamps. These headlights are designed for off road use only. Canbus modules sold separately

Socket locator correct position
