

200W Portable Solar Blanket

#KT70733

www.ktcables.com.au

DESCRIPTION

12V, 200W portable folding solar panel blanket.

Features 8 x 25W powerful monocrystalline cell in a series configuration and flexible charging capabilities, compatible with Gel/Wet/AGM/Calcium & Lithium batteries. Comes with a 12V, 20A PWM solar charge controller, 4.8m, 50A connector lead with extra positive/negative battery clamps lead & a built-in storage bag for transportation. 12 months manufacturer warranty.

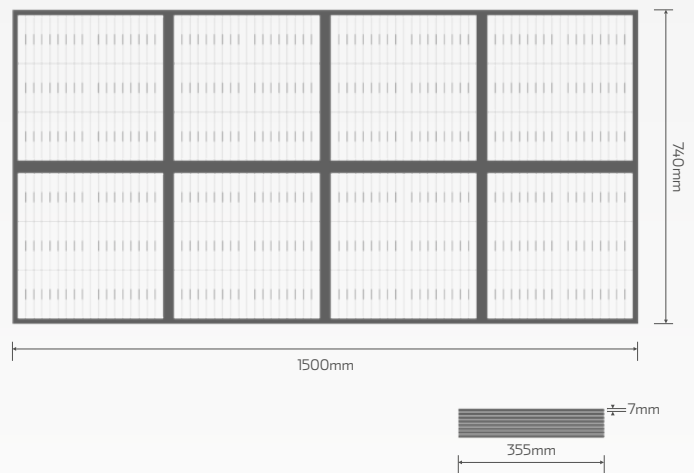

FEATURES

- Powerful & convenient 12V, 200A portable folding solar blanket
- Equipped with 8 x 25W monocrystalline cells in a series configuration
- 12V, 20A PWM solar controller with battery voltage, amperage & error codes display
- Includes a 4.8m, 50A connector lead with extra positive/negative battery clamp lead
- Suitable for use with Gel/Wet/AGM/Calcium & Lithium batteries
- Comes with a built in storage bag with storage compartments

TECHNICAL SPECIFICATIONS

Power Tolerance	• +3%
Maximum Power (Pmax)	• 200Wp
Maximum Power Voltage (Vmp)	• 19.9 Volt
Maximum Power Current (Imp)	• 10.07 Amp
Rated Voltage	• 12 Volt
Open Circuit Voltage (Voc)	• 23.8 Volt
Short Circuit Voltage (Isc)	• 10.71 Amp
Operating Temperature	• 45 +/- 2°C
Product Application	• Class A
Maximum System Voltage	• 1000 Volt DC
Product Weight	• 7.5Kg
Dimensions (Folded)	• 355mm (L) x 355mm (W) x 60mm (D)
Dimensions (Unfolded)	• 740mm (H) x 1500mm (W) x 7mm (D)
Warranty	• 12 months manufacturer warranty

Kit Includes:

- 1 x Premium quality folding solar blanket
- 1 x 12V, 20A PWM solar charge controller
- 1 x 50A heavy duty connector extension lead, 4.8m
- 1 x Heavy duty connector with positive/negative battery clamps, 500mm lead
- 1 x Built in storage bag with storage compartments.
