

Earthmoving Jumper Leads - Nitrile Cable

12/24V Batteries

www.projecta.com.au

DESCRIPTION

These heavy duty jumper leads have surge protection to protect the vehicles electronics from voltage surges when jump starting.

Suitable for 12 Volt or 24 Volt applications

FEATURES

- Surge protection, guards vehicle electronics from voltage spikes
- Storage bag included. Convenient carry bag for storing cables
- Heavy duty, fully insulated clamps with brass teeth for improved connection
- Premium nitrile cable, offering superior conductivity and insulation for exceptional current transfer

TECHNICAL SPECIFICATIONS

|-----------------------------|----------------|-----------------------|-------------------------|
| Suitable Application | • 12 / 24 Volt | Cable Material | • Premium Nitrile Cable |
|-----------------------------|----------------|-----------------------|-------------------------|

PART NUMBERS

| Part No. | Cable Amperage* | Cable Size | Cable Length | Clamp Material | Application |
|-------------|-----------------|-------------------|--------------|----------------------------------|--|
| NB750-35SP | 750 Amps | 35mm ² | 3.5 metres | Copper plated | Professional & commercial vehicles |
| NB750-45SP | 750 Amps | 35mm ² | 4.5 metres | Solid brass (Withstanding 1000A) | Commercial vehicles |
| NB750-60SP | 750 Amps | 35mm ² | 6.0 metres | Solid brass (Withstanding 1000A) | Commercial vehicles |
| NB900-45SP | 900 Amps | 50mm ² | 4.5 metres | Solid brass (Withstanding 1000A) | Heavy commercial & industrial vehicles |
| SB900-60SP | 900 Amps | 50mm ² | 6.0 metres | Solid brass (Withstanding 1000A) | Heavy commercial & industrial vehicles |
| NB1000-45SP | 1000 Amps | 70mm ² | 4.5 metres | Solid brass (Withstanding 1000A) | Construction & earth moving machinery |
| SB1000-60SP | 1000 Amps | 70mm ² | 6.0 metres | Solid brass (Withstanding 1000A) | Construction & earth moving machinery |

* Amperage is an industry reference only.
