

**DIY Booster  
Cables - CCA Cable**  
12/24V Batteries

www.projecta.com.au

**DESCRIPTION**

These light to medium duty jumper leads have surge protection to protect the vehicles electronics from voltage surges when jump starting.  
Suitable for 12 Volt or 24 Volt applications

**FEATURES**

- Surge protection, guards vehicle electronics from voltage spikes
- Storage bag included. Convenient carry bag for storing cables
- Fully insulated clamp, protects user from accidental short through clamps
- Copper clad aluminium, offering superior conductivity and insulation for exceptional current transfer

**TECHNICAL SPECIFICATIONS**

<b>Suitable Applications</b>	• 12 / 24 Volt	<b>Clamp Material</b>	• Steel
<b>Cable Material</b>	• Copper clad aluminium -CCA		

**PART NUMBERS**

Part No.	Cable Amperage*	Cable Size	Cable Length	Application
SB100*	100 Amps	4mm <sup>2</sup>	2.5 metres	4 cylinder vehicles
SB200SP	200 Amps	9mm <sup>2</sup>	2.5 metres	4 & 6 cylinder vehicles
SB400SP	400 Amps	15mm <sup>2</sup>	2.5 metres	6 & 8 cylinder vehicles

+ Amperage is an industry reference only. \* Does not include surge protection.
