

120W Monocrystalline Foldable Solar Panel Kits
#SPM120K

www.projecta.com.au

DESCRIPTION

Complete 12V solar panel kits containing a solar panel with built-in solar controller and 5m fused battery leads. Folds up into a compact 36cm x 50cm bag so they can be easily stored in a boot or a trailer. Features high performance monocrystalline technology and comes with metal support legs to properly position the panel for maximum performance.

FEATURES

- Frameless foldable design (folds into 36cm x 50cm bag)
- Comes with a fused 5m battery lead
- Metal leg support to properly position panel
- Built-in solar panel controller (4 stage controller)
- Scratch resistant

TECHNICAL SPECIFICATIONS

Type	• Monocrystalline
Rated Power	• 120 Watt
Open Circuit	• 21 Volt
Short Circuit Voltage	• 7.52 Amp
Peak Power Voltage	• 17.5 Volt
Peak Power Current	• 6.86 Amp
Charge Time	• 7 - 35 Hours
Dimensions (Unfolded)	• 2190mm L x 500mm H x 45mm D

Suitable Battery Type

Battery Type	CCA / MCA / Ah Rating
Automotive Batteries	• 250-1200 CCA
Marine Batteries	• 350 - 1500 MCA
Deep Cycle Batteries	• 40 - 200 Ah
