

**180W Monocrystalline  
Soft Folding Solar Panel**  
#SPM180K

www.projecta.com.au

**DESCRIPTION**

12V, 180W Monocrystalline portable soft folding solar panel kit. Solar panel with built-in solar controller and 5m fused battery leads. Folds up into a compact 38cm x 56cm bag so they can be easily be packed into a boot or a trailer. Features high performance monocrystalline technology and comes with metal support legs to properly position the panel for max performance.

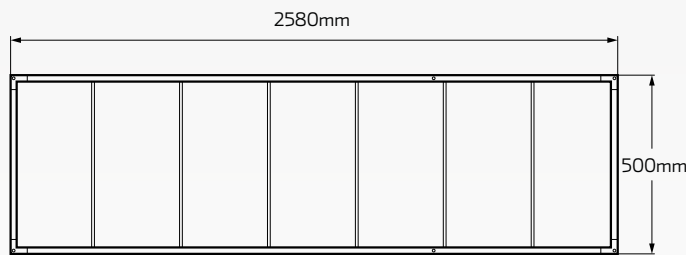

**FEATURES**

- 12V, 180W Monocrystalline soft folding portable solar panel kit
- Frameless solar panel design for ease of transportation
- Pre-wired with 5 metre of battery cable lead
- Comes with metal support leg for positioning
- Built-in advance 4 stage solar controller
- Enhanced panel design with scratch resistance matt coating

**TECHNICAL SPECIFICATIONS**

**Dimension diagram**

\*Diagram is just a rough representation of product

<b>Solar Panel Type</b>	• Monocrystalline
<b>Rated Power</b>	• 180 Watt
<b>Open Circuit</b>	• 21 Volt
<b>Short Circuit Current</b>	• 11 Amp
<b>Peak Power Voltage</b>	• 18 Volt
<b>Peak Power Current</b>	• 10.3 Amp
<b>Test Conditions</b>	• 1000W/m <sup>2</sup> , 25°C

	Height	Width	Depth
<b>Unfolded</b>	• 560mm	• 2580mm	• 45mm
<b>Folded</b>	• 560mm	• 380mm	• 90mm

**Battery Charge Times**

<b>Automotive</b>	• 250 - 1800 CCA
<b>Marine</b>	• 250 - 2300 MCA
<b>Deep Cycle</b>	• 40 - 300 Ah
<b>Charging Time</b>	• 7 - 35 Hours
